PROFESSIONAL SUMMARY

Results-oriented Data Analyst and Computer Science graduate (B.Tech, 2026) with hands-on experience in data cleaning, statistical analysis, machine learning, and business intelligence reporting. Delivered end-to-end analytics solutions on 1,470+ records using a Random Forest model (86% accuracy) and Power BI dashboards tracking attrition KPIs. Proficient in Python, SQL, and Power BI with a strong ability to translate complex data into actionable insights for both technical and non-technical stakeholders.

TECHNICAL SKILLS

Languages: Python (Advanced), SQL, MySQL, Java

Analytics & Machine Learning: Scikit-learn, NumPy, Pandas, EDA, Feature Engineering, Statistical Analysis, Data Cleaning, Data Pipeline

Business Intelligence & Visualization: Power BI, DAX, KPI Reporting, Tableau, Seaborn, Matplotlib, Microsoft Excel

Databases: MySQL queries, joins, subqueries, ETL pipelines

Tools: Jupyter Notebook, Git, GitHub, VS Code, IntelliJ IDEA

WORK EXPERIENCE

Sports Data Analyst (Remote) | Catch Sports Analytics

Jul 2026 – Present

- Watching game videos across American Football, Basketball, Volleyball, and Baseball/Softball to understand plays and match context.
- Tagging key in-game events using VidSwap and other in-house tools to build structured, analysis-ready datasets.
- Following defined workflows and guidance to ensure consistent, accurate data logging across matches.
- Helping coaches and team staff get better insights into player and team performance.

PROJECTS

HR Attrition Analysis & Dashboard

Apr 2026 – May 2026

Python · Power BI · DAX · Excel · Scikit-learn

- Built end-to-end data pipeline on a 1,470-record HR dataset; identified key attrition drivers across 9 departments using EDA and feature engineering.
- Trained Random Forest Classifier achieving 86% accuracy; reduced analysis scope by 40% through feature importance ranking.
- Developed 5-page Power BI dashboard with executive KPIs — Attrition Rate: 16.1%, Attrition Count: 237 — across departments, age bands, and job roles.
- Automated KPI reporting with 8+ DAX measures, saving 3+ hours per cycle and enabling self-service analytics for HR stakeholders.

Cricket Statistics Dashboard

Mar 2026 – Apr 2026

Python · SQL · Power BI · Seaborn · Excel

- Consolidated cricket performance data for 100+ players from multiple sources; automated ETL pipeline reduced data preparation time by 60%.
- Modeled key metrics — batting average, strike rate, bowling economy — using SQL aggregations and Python transformations.
- Built 6 interactive Power BI visualizations tracking player form trends; demonstrated statistically significant correlation with team win rates.

EDUCATION

B.Tech Computer Science & Engineering (Data Science)

Jul 2022 – Jun 2026

Oriental College of Technology, RGPV, Bhopal, India

Senior Secondary (Class 12), CBSE

Mar 2021

Saket M.G.M Sr. Sec. School, Vidisha, M.P | 74%

Secondary (Class 10), CBSE

Mar 2019

Samarpan Public School, Mandi Bamora, M.P | 74%

CERTIFICATIONS & LEARNING

- Data Analytics Job Simulation — Deloitte (Forage), Jun 2026
- MySQL with Information Technology — Relational DB design, advanced queries & joins
- 30 Days Power BI Micro Course — SkillCourse (ISO 9001 Certified), May 2026
- Introduction to Tableau — Basics, upGrad, Jun 2026
